Dr. S. E. Luria  
Department of Bacteriology  
University of Illinois  
Urbana, Illinois

Dear Luria —

Lardy called to remind me again that you are scheduled for an Enzyme Institute seminar on December 3.

Madison is rapidly losing its climatic advantages for a larger meeting, but I would not think that you would care to make two trips here in one month. So let us arrange to meet on the occasion of your seminar trip. I do not know how many people from Urbana you expect to accompany you, or whom else you would like to invite. Perhaps the simplest thing would be for you to make this arrangement, and then let me know what housing I should reserve. We have room for 1 guest ourselves, but will have no trouble finding places for several others in convenient tourist homes or hotels.

~~Next time around, I will be away myself the 15th; the 22d is a home football game, so is the 8th, so there probably would be no propitious weekend next month anyhow.~~ I will be away myself the 15th; the 22d is a home football game, so is the 8th, so there probably would be no propitious weekend next month anyhow.

Best regards,

Joshua Lederberg
